### NARRATIVE

Engine 521, Squad 541 and Medic 532 respond Still Alarm for the outside odor investigation. On arrival, Itasca Police on scene and stated several occupants from apartment complex smelled odor from pond located south of complex. Companies investigated, starting at the west end of pond. Slight film of fuel noted around pond's edges and odor of fuel stronger as companies investigated east. Companies found fuel coming from sewer drain at east end of pond near 1640 Norwood Av.

Alarm upgraded to Full Still and Deputy Chief Metoyer requested to scene. Companies utilized absorbent "booms" to contain fuel. Itasca water department, EPA and Glenside Hazardous Materials trailer notified. Property Manager Paula Moshi of Colonial Apartments also requested. Due to unknown origin of spill, Itasca Fire Department notified and responded. On investigation and monitoring, companies determined fuel to be diesel with green shade to it. No explosive conditions found. Apartment complex found not to be in danger.

EPA (Ed Osowski) arrived and investigated possible source of spill, along with Itasca water department and Roselle companies. Upon extensive investigation, found furthest sign of fuel in sewer line just south of Thorndale Av. & Hilltop intersection. This area is in the Itasca Fire Department jurisdiction. EPA and Itasca Fire Dept. investigated sewers and buildings in area, with no findings on source of spill.

Area secured and scene turned over to EPA. EPA advised a crew would be out following day to clean up fuel spill and further investigate. Companies returned in service. Paula Moshi advised of findings and of future operations from the EPA.

EPA - Edward Osowski 847.344.2431  
Colonial Village - Paula Moshi 630.894.1010

\* Wind direction - 6 mph out of southeast
